

WoidInfo

July 2024

CAEX

Dear DusterWoid-residents,

the start of the camp is approaching, and we want to provide you with the last specific information. If you have any ongoing questions, you can also contact your sub-camp leaders in your communication groups at any time.

Charging of mobile phones of young people and leaders

Please note that both kids and leaders can ONLY charge their mobile phones using the mobile phone charging box they have brought with them. For the groups from other countries travelling to WoidLa24 it is advisable to share the box with your partner group or ask them to bring one extra for you. They received the instruction in German language. Please note that there will be NO electricity in the sub-camp hangar and therefore NO possibility to charge mobile phones. Mobile phones plugged into sockets in sanitary containers will be regularly removed by Health&Safety. It is possible to bring your own powerbanks of course.

Description of activity & material requirement

Please enter your activity description in the form provided, especially if you still need materials or space:

https://docs.google.com/forms/d/e/1FAIpQLScevHncnV5WXz5w55mz5YxEMB-JS8C4NE5eVkzCm6_8BBtWfg/viewform

Thanks to all groups who have already entered their details.

Emergency Card for Offsite Activities

Please make sure that your kids carry an emergency card with all relevant information with them to the offsite activities. You will find the print template in the appendix and can print out and fill in the card at home in advance.

Don't hesitate to contact caex@woidla24.at in case of questions.

Yours in scouting from the Woid,
your WoidLa24-CaEx-Team
